

CLINICALLY SUPPORTED CARDIOVASCULAR HEALTH BENEFITS

- Three clinical studies support the effectiveness of MegaNatural-BP[®] in supporting healthy blood pressure*
- Efficacy shown for delivery via supplements and beverages
- Patented
- Water-soluble
- Highly pH stable
- GRAS-approved
- Non-GMO
- High ORAC values

MegaNatural-BP[®] is a patented FDA no-objection GRAS grape seed extract that has been shown to help support healthy blood pressure metabolism and normal arterial function. Human studies conducted at the University of California, Davis, Department of Preventive Cardiology showed that a 150-300 mg per day dose supports healthy systolic and diastolic blood pressure after six weeks.

The product is made in California from a special seed blend derived entirely from unfermented domestic red and white varietal wine grape seeds. The seeds are extracted with hot water, purified, concentrated and spray-dried with no carrier, resulting in a high-phenolic, high-ORAC grape seed extract powder without any preservatives. A water-soluble ingredient, MegaNatural-BP is ideal for use in supplements and in functional foods and beverages.

MEGANATURAL-BP® IS IDEAL FOR USE IN SUPPLEMENTS AND IN FUNCTIONAL FOODS AND BEVERAGES

MegaNatural-BP® beverage supported healthy systolic and diastolic blood pressure. After withdrawal of grape seed extract (GSE), blood pressure returned to pre-study levels, demonstrating efficacy of this ingredient.
